Style Number: 320
Service: Pump and Valve Packing
Product Type : Braided Packing

Description:

Braided from Kynol, Style 320 is impregnated with PTFE and a proprietary inert break in lubricant. Phenolic fibers make Style 320 packing non-staining, non-hardening, and long wearing, with low shaft wear and low leakage. An excellent multipurpose packing which is ideally suited for applications where a durable yet conformable packing is needed.
