Style Number: 344BIL
Service: Pump Packing
Product Type : Braided Packing

Description:

Braided from 100% PTFE filament, Style 344BIL is thoroughly impregnated with a PTFE suspensoidal blocking agent and our proprietary break in lube. Our unique blend of lubricating oil eases friction during startup and operation. A soft but dense and stable packing, 344BIL is ideally suited for chemical process pumps where extreme chemical resistance and extremely low shaft friction are required.

Construction:	Interlock Braid
Temperature Rating:	500° F / 260°C
pH Rating:	0 – 14
Shaft Speed Rating:	1500 FPM / 8 MPS
Pressure Rating:	300 PSI / 20 BAR
