Style Number: 8000
Service: Pump and Valve Packing
Product Type : Braided Packing

Description:

Braided from nuclear grade graphite filament, 8000 is designed to withstand the extreme pressure and temperature associated with nuclear applications. Coated with our proprietary graphite blend, 8000 has an extremely low coefficient of friction, as well as extremely high thermal conductivity. Through our unique braiding and coating process, this packing stays flexible, while resisting fraying when cut. For use in valves, centrifugal pumps, rotary pumps, and reciprocating pumps.

Construction:	Interlock Braid
Temperature Rating:	850° F 455°C Air 1200° F 649°C Steam 6000° F 3315°C Non-Oxidizing Atmosphere
pH Rating:	0 - 14
Shaft Speed Rating:	4000 FPM / 20 MPS
Pressure Rating:	500 PSI / 34 BAR Pump 4000 PSI / 276 BAR Valve
