**Style Number:** 8011  
**Service:** Pump and Valve  
**Product Type :** Twisted Packing

**Description:**

Manufactured from high quality aluminum alloy over a soft fiberglass core, style 8011 is lubricated with a blend of a high viscosity light oil and high purity flake graphite. Style 8011 packing is available in ring and coil form, for a wide range of applications. Designed primarily for services requiring a high strength, low friction compressible packing, such as boiler feed pumps, heat transfer pumps, or oil charge pumps. Available in coil form only.

<b>Construction:</b>	Twisted and Die formed
<b>Temperature Rating:</b>	1000° F / 537°C
<b>pH Rating:</b>	4 – 10
<b>Shaft Speed Rating:</b>	2000 FPM / 10 MPS
<b>Pressure Rating:</b>	1000 PSI / 68 BAR
